The Chamber Technology Forum in partnership with
the High Commission of Canada request the pleasure of your company
at a breakfast panel debate entitled

'Global Trends in Cybersecurity'

A recent Deloitte report points out surprising hotspots for cybersecurity innovation around the world and upcoming trends. Ontario was ranked 4th largest cybersecurity hub globally.

This panel will discuss:

- How an established company is responding to the opportunity presented by cybersecurity and reinventing itself as a global and foundational cybersecurity player;
- How a new company is capitalising on the cybersecurity opportunity and scaling its business globally;
- How companies can prepare for and take advantage of the global trends to create scalable and sustainable businesses of all sizes.

Keynote Speaker

Steve Rampado

Partner, Risk Advisory **Deloitte Toronto**

Steve Rampado is a Partner with Deloitte's Risk Advisory practice in Toronto. Mr. Rampado has over 20 years of experience in Cyber Security, Risk Management, and Regulatory. He has accumulated extensive experience in the management, design, development and implementation of information security and risk management programs primarily across the Financial Services industry. The past 5 years Steve was the Director of Operations for the Deloitte Risk Advisory practice in Toronto, managing a group of 45 Risk Partners and 350 staff.

Steve has worked across a number of large enterprises, in many industries, helping them implement end-to-end security solutions, including security strategies, security governance frameworks, policies, procedures and end-to-end security programs. He has helped many clients with the development and implementation of Information Security Management Systems for ISO27001 certifications, Network Zoning and Segmentation, Active Threat Management, Audit Remediation, Security Awareness Training, Logging, Monitoring and Reporting, Compliance and Remediation for Payment Card Industry Data Security Standards, and solutions to address privacy and data protection legislation requirements.

Recently Steve has been actively involved in helping lead our efforts around Cyber Innovation and helping understand how both Toronto and Ontario could both play a much more significant role in the Global Cyber marketplace. Steve and his colleagues co-authored a paper entitled "Harnessing the Cybersecurity Opportunity for Growth"

Panellists

Sinisha Patkovic

Vice President , Government Solutions, **BlackBerry**

Sinisha Patkovic is Vice President of BlackBerry's Government Solutions. He plays a leading role in BlackBerry's engagement strategy with organisations operating within highly-regulated, security-conscious environments, ensuring that the end-to-end product proposition continues to meet and anticipates the needs of these market segments. Sinisha also has deep-sector knowledge and

experience of broader Enterprise IT and Risk Governance, secure communications, and mobile, cloud and Internet of Things technologies.

Jim Daniel

Sales Director EMEA **eSentire Inc**

Jim Daniel heads up the eSentire EMEA based team in London as EMEA Sales Director and has worked in the IT Security industry for the past 17 years. He has worked both sides of the 'fence' during that time, Managing IT Security teams within an International Telco to providing Consulting services to organisations across multiple industry sectors as well as working for IT Security Vendors and Security Service providers. Over the past 6 years his focus has been on the Advanced Threat vector and has a wealth of experience within the field both in terms of the issues faced by organisations and the technologies and services available to assist in mitigating those risks. Within eSentire Jim is focussed on expanding the strong EMEA growth for the company and assisting organisations to improve their current Security posture by utilising the Managed Detect & Respond services that eSentire offer.

Moderator

Aaron Rosland Counsellor (Commercial – Ontario)
High Commission of Canada

Aaron Rosland is a Canadian diplomat at the Canadian High Commission in London, UK, responsible for commercial relations between Ontario and the UK. He helps Ontario companies export to the UK while also enabling UK companies incubate their North American businesses in Ontario. Prior to working as a diplomat, Aaron worked in Government, Non-profits and independently across industry sectors in Asia, the Americas and Europe. Most notably, he personally opened branch offices for a Canadian organisation in 21 countries; this experience informs his work helping companies scale up internationally. He also sits on the board of the Canada-UK Chamber of Commerce and the Association of Economic Representatives in London. www.investinontario.com

Toronto Financial Services Alliance (TFSA)

The Toronto Financial Services Alliance (TFSA) is a unique, public-private partnership dedicated to growing Toronto region's financial services cluster and building it as a "top ten" global financial services centre. Established in 2001, TFSA is a collaboration involving three levels of government, the financial services industry and academia. Working collaboratively with industry and
